PROFESSIONAL SUMMARY

Full Stack MERN Developer with 3+ years of experience building scalable, production-ready web applications. Proficient in MongoDB, Express.js, React.js, Node.js, TypeScript, Next.js, REST APIs, authentication, and RBAC. Experienced in developing responsive frontends, secure backend services, and AI-powered features, with a focus on clean architecture, performance, and end-to-end delivery.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, HTML5, CSS3, Tailwind CSS, shadcn/ui

Backend: Node.js, Express.js, NestJS, REST APIs, WebSockets, JWT Authentication & Authorization, RBAC

Databases: MongoDB, PostgreSQL, MySQL, Supabase

ORMs/ODMs: TypeORM, Mongoose

AI & Integrations: OpenAI API, RAG, AI Agents, MCP, Third-Party API Integration, Payment Gateway Integration

DevOps & Tools: Git, GitHub, Docker, GitHub Actions, Vercel, Postman

Practices: Agile/Scrum, MVC, Component-Based Architecture, Code Review

PROFESSIONAL EXPERIENCE

Senior Software Developer

April 2025 – Present

Tech Crusades | Full-Time | techcrusades.com

- Lead full-stack development of enterprise SaaS applications using Next.js, TypeScript, and Supabase, working on application architecture, RBAC, and features from development to delivery.
- Build dashboards, data visualizations, and reusable UI components using Recharts, TanStack Table, shadcn/ui, and Redux Toolkit, and integrate OpenAI APIs for AI-powered features.
- Build secure authentication and authorization flows with session management, and manage CI/CD using GitHub Actions with deployments through Vercel.

Software Developer

July 2023 – March 2025

Mercury Sols | Full-Time | mercurysols.org

- Built and maintained production web applications using the MERN stack and NestJS, including customer and vendor platforms with real-time features.
- Developed REST APIs, JWT authentication, RBAC, and payment integrations using Node.js, NestJS, TypeORM, PostgreSQL, and MongoDB.
- Built reusable and responsive components, followed DRY principles, tested features across browsers, and worked with Agile teams to deliver projects on time.

KEY PROJECTS

HighGear Platform (HighGear App + Admin Portal) — Enterprise Analytics SaaS

Next.js, TypeScript, PostgreSQL (Supabase), OpenAI, Tailwind CSS, Recharts, TanStack Table

- Built an enterprise analytics platform with separate user and admin portals, providing KPI dashboards, AI-generated insights, and role-based access.
- Developed the platform using Next.js, TypeScript, and Supabase PostgreSQL, building dashboards with Recharts and TanStack Table and integrating OpenAI for data summaries.

Knowly Platform (Parent Portal + Learning Kiosk) — AI-Powered Homeschool EdTech SaaS

Next.js, TypeScript, Electron, PostgreSQL (Supabase), Deno Edge Functions, OpenAI

- Built an AI-powered homeschool platform with a child-facing learning kiosk and a mobile-first parent portal for session tracking, lesson progress, and reporting.
- Developed the kiosk with Electron and the parent portal with Next.js and TypeScript, using Supabase PostgreSQL and Deno Edge Functions with RLS, and integrating OpenAI for adaptive lessons and conversation prompts.

Kalpa AI — AI-Powered SaaS Platform

Next.js, React, TypeScript, Redux Toolkit, Tailwind CSS, shadcn/ui

- Built a role-based dashboard for an AI SaaS platform with different interfaces and workflows for multiple types of users.
- Developed the platform with Next.js, React, and TypeScript, using Redux Toolkit for state management, shadcn/ui and Recharts for the interface and visualizations, and AWS Amplify (Cognito) for authentication, MFA, and session management.

Therapist Assessment System — Role-Based Clinical Evaluation Platform

React.js, Node.js, Express.js, MongoDB, Redux

- Built a clinical assessment platform for Admins, Participants, and Raters to manage video assessments and provide structured feedback.
- Developed the platform with React.js, Node.js, Express.js, and MongoDB, using Redux for state management and ExcelJS to generate consolidated multi-sheet evaluation reports.

EDUCATION

Bachelor of Science in Computer Science

2019 – 2023

Khawaja Fareed University of Engineering and Information Technology
